

Pine Grove

Forrest Health®

An Overview of Pine Grove Behavioral Health & Addiction Services

Presented by: Angela E. Gray, MA, MS, LPC

Title: Business Development Coordinator

Pine Grove's Main Campus

COVID-19

- All of Pine Grove's treatment programs are open and are accepting patients while taking all recommended COVID-19 precautions.
- All specialty treatment patients travelling to Pine Grove for care are required to have a negative COVID-19 test (within five days) prior to admission to their program.
- All patients within Pine Grove's specialty treatment programs are also required to wear a face mask while participating in treatment.
- Additionally, we are taking other measures such as daily temperature screenings of Pine Grove's staff and patients, and adhering to our hospital's guidelines.
- We have also expanded our telehealth services as well, and those are available for adults, adolescents and children. Outpatient telehealth services are available through our secure patient portal.

Pine Grove Features Three Inpatient Units

- Psychiatric Intensive Care Unit
- Adult Psychiatric and Dual Diagnosis Unit
- Child and Adolescent Unit
- Additionally, Pine Grove offers detox services for our specialty treatment program patients on our Legacy Unit
- PHP Program for the treatment of a variety of psychiatric conditions

The Lincoln Center
